# THE SHABBOS PROJECT 2018

Shabbos is our national treasure. The Shabbos Project, an initiative founded by Rabbi Warren Goldstein, Chief Rabbi of South Africa, brings Jews together in communities around the world to experience Shabbos together.

In a non-judgmental and open Shabbos atmosphere everyone can experience Shabbos together. In the last six years, worldwide, the Shabbos experience touched the lives of Jews from 1416 communities in 97 countries. Aish Denver is proud to host this year's Shabbos Project on October 26-27. Everyone – regardless of year-round Shabbos observance - is invited to join us for a program-packed, meaningful Shabbos with family, friends, and community.
